Part 5 -- Editing and headline writing: Edit the following story and write a headline that has two lines with a maximum character count of 19 per line.

BOOMTOWN, Fla.--John C. Smith, a winner of the Congressional Medal of Honor, died Tuesday night at the Boomtown Town Nursing Home. He was 53 and a Boomtown resident for more than 30 years.

Mr. Smith was born in St. Louis and moved to Boomtown after service in the Korean War, where he was a combat pilot. He was credited with shooting down more than 15 North Korean fighter planes during the war. After the war, he served as a pilot for TransAmerica Airlines until he retired in 1985. He had a life-long interest in flying and taught dozens of Boomtown residents how to fly.

Mr. Smith was active in the American Legion, the Nights of Columbus and many charitable organizations in Boomtown. He founded the Boomtown Center for Children and was its honorary director for nearly two decades.

Survivors include four brothers: Joseph of St. Louis; Tom of Los Angeles; Jeff of Boomtown, and Fred of Phoenix, and a sister, Sally, who died in 1996. Funeral arrangements are by Boomtown Funeral Home, 333 Main St.

Part 5 -- Editing and headline writing: Edit the following story and write a headline that has two lines with a maximum character count of 12 per line.

A chilly dawn will grip most places from the Middle West to the East Coast tomorrow, with many low-temperature records being broken. Snow flurries are expected in the Appalachians, while rain will spread across much of the Northwest.

Weather experts are predicting that the so-called El Nino phenomenon, which has warmed the waters of the Pacific Ocean as it moves westward from the Hawaiian Islands to Mexico, will cause water temperatures to increase by at least 10 degrees Fahrenheit offshore Mexico City. Such an increase, the experts say, could produce storms that would cause severe flooding.

Thomas Jones, a spokesman for the National Weather Service, added that the path of El Nino could cause a 20 percent increase in the amount of rainfall in Mexico City. "Last year," Mr. Jones said, "the infrastructure of Mexico City was challenged by 15 inches of rainfall. I can only guess what 20 inches would do to the city this year. I hope they have the proper preparations in place."

A warm front will move eastward across the Northern Plains states, with the temperature in Fargo, S.D., expected to reach 65 degrees. A band of showers will precede the surge of milder air in the region.
