Instructions

Please read these instructions before beginning. **The 5-page test has a one-hour time limit.** It consists of five parts for a total of 100 points: Part 1, grammar; Parts 2, 3 and 4, current events; and Part 5, editing and headline writing.

Answers must be written on the test. Test-takers are permitted to have only blank paper, pens and pencils.

Don't forget to leave a space between words. Count each character (from a comma, to a capital W, to a space) as one unit. For example, the headline below would have the following counts:

Editing Test (12 units)

Called Easy (11 units)

For the editing component, you should look for spelling, grammar and usage mistakes, as well as contradictions and/or gaps in the stories.

WASHINGTON – White House and congressional budget officials are predicting a 2009 deficit of \$1.6 trillion for 2009, far wider than the \$445 billion deficit for 2008.

To put that in perspective, that amounts to some \$50,000 of debt for each man, woman and child in the United States, a figure that White House adviser Christina Romer says reflects a recession “worse than the information that we forecasters had back last fall.”

Treasury Secretary Ben Bernanke said projections can be “wildly inaccurate” and cautioned that the numbers could change based on the amount of income taxes collected.

Much of the projected deficit increase stems from rising health-care costs and Social Security payments. “The number of seniors participating in the programs have risen to more than 20 million from only eight million 10 years ago, said Thomas D. Jones, a spokesman for the Social Security Administration.

The outlook for total deficits over the next 10 years was even more bleak, with the White House projecting the figure at nearly \$9 billion, assuming the White House keeps its pledge to retain tax cuts for families earning less than \$250,000 a year.

Part 5—Editing and headline writing, continued: Edit the following story and write a headline that has two lines with a maximum character count of 35 per line.

Edward M. Kennedy, “the lion of the Senate,” died late Tuesday at his home in Hyannis Port, Mass., after a long battle with brain cancer. He was 77.

He was first elected to the Senate in 1962, filling a seat held by his brother John, who was elected president in 1960 and assassinated two years later in Dallas.

Kennedy, the most liberal and effective member of the Senate, was instrumental in passing landmark legislation in areas ranging from civil rights to education to health care. He was the patriarch of a family whose actions captured Americans’ interest for decades.

President Barak Obama, addressing Kennedy’s 45-year career in the Senate, said, “his ideas and ideals are stamped on scores of laws and reflected in millions of lives.” He added, “For his family, he was a guardian. For America, he was a defender of a dream.

Vice President Joe Biden said, “For 36 years, I had the privilege of going to work every day and sitting next to him and being part of history.”
